January 25th 2018

Compliance with EU Directive 2011 / 65 / EU (RoHS)

G Bopp is aware that according to EU Directive RoHS, 2011 / 65 / EU and subsequent amendments, in electrical and electronic equipment the use of certain chemical substances is restricted.

This applies to the following substances:

- Mercury and related substances
- Lead and related substances
- Chromate – compounds
- Cadmium and related substances
- Polybrominated Biphenyl (PBB)
- Polybrominated Diphenylether (PBDE)

Bopp produces meshes and sintered products in a wide range of different alloys for diverse applications. We are not always aware which products are used in electrical and electronic equipment.

Where Bopp products are knowingly used for the manufacture of electrical and electronic equipment, built into such appliances, we confirm that to the best of our current knowledge, these products do not contain any materials whose use in such applications is contraindicated by the RoHS Directive.

Best Regards

G. Bopp + Co. AG
